

I am writing in support of K-LOVE radio in my local community. The stations are 95.9 and 91.9. I listen daily to K-LOVE radio in my car, at home, and at work. This radio station is a vital part of our community providing a unique service as there are no other non-commercial Contemporary Christian radio stations in this area. I am urging you to not displace these local stations by LPFM broadcasters. The uplifting content of the music of K-LOVE is the very opposite of the many FM radio stations available. This music is inspirational and promotes wonderful family values. The news on this station is usually the only news that we hear about Christian values and events worldwide. This service is vital to our public interest. It is wonderful to know that I can leave this station on my radio and not have to worry about the content of the songs or about profane language. It is truly a family station. Please let K-LOVE continue to provide the wonderful service that we enjoy today. Thank you.
